

## Tofino 9.5 - Ref: 15037

Designed by architects Joubert and Nivelt, the hull of this unit is beautiful, with sleek and resolutely modern lines. Thanks to its deep keel ending with a bulb, the boat remains stiff under sail and offers all the sensations of a large sailboat.

Its narrow 2.5-meter hull gives it exceptional passage in the water, as well as several practical benefits such as access to small marina berths and easy road transport. The specially designed trailer can be used for storage or wintering of the boat. This Tofino is well equipped with NEW Raymarine electronics 2019, night navigations lights, fishing sonar, New North Sails Code 0 and 3 spinnakers and more.
